

IRFAN FADILLAH

An Informatics Engineering graduate (GPA 3.68) from Universitas Banten Jaya, currently working as an IT Developer at PT. Adidata Informatika, placed at Bank Negara Indonesia. Experienced in mobile app development using React Native and creating REST APIs with Spring Boot. Proficient in various programming languages (HTML, CSS, JavaScript, PHP, Golang, Java, VB.Net), frameworks (Laravel, CodeIgniter, React Native), and databases (MySQL, PostgreSQL, DB2, MS SQL Server, Oracle). Able to work in dynamic and innovative environments, contributing effectively to the team. Ready to provide the best solutions for complex challenges.
